DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 18-30, 34-37, 40 and 41, drawn to an expandable tubular assembly, classified in class 285, subclass 382.
- II. Claims 8-17, 31-33, 38 and 39, drawn to a method of coupling an expandable tubular assembly, classified in class 29, subclass 458.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product made and process of making. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made by another and materially different process such as one that does not require curing the sealant. The product claims are recited in product-by-process form and as such are not construed as being limited to the product formed by the specific process recited. In re Hirao et al., 535 F.2d 67, 190 U.S.P.Q. 15, see footnote 3 (CCPA 1976). Whether a product is patentable depends on whether it is known in the art or it is obvious, and is not governed by whether the process by which it is made is patentable. In re Klug, 333 F.2d 905, 142 U.S.P.Q. 161 (CCPA 1964).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric K. Nicholson whose telephone number is 703-308-0829. The examiner can normally be reached on Tuesdays-Fridays - 7:30-6:00.
